

PROJECT	MAFIA: Definitive Edition
TYPE	Story Mission
DEVELOPER	Juan Hidalgo

Set-up:

Morello has been investing in the creation of a movie studio and in the recording of a movie. He has invested a lot of money so if we destroy his studio, it will be a huge blow to him and his family. Salieri wants us to go and destroy the studio and kill the person in charge of the operation. The mission will be carried out by Tommy and Paulie, Paulie must place some explosives with a timer and Tommy infiltrate in the studio and kill the target in his dressing room. Salieri also wants us to tell him a message before killing him. The studio is located on the outskirts of the city, near the lake fyer.

Synopsis:

I have divided the mission in three sections:

First Section. Infiltration.

- Stealth section where you have to enter the studio and get to your target's dressing room without being detected.
- Upon entering the dressing room the target is not there.
 - Cinematic where we see that the objective is not there and when Tommy leaves the dressing room he runs into a worker who mistakes him for film's extra, helping Tommy to easily enter the interior of the studio.
- Once inside, he must search the set for his target, being able to also watch the recording of two movie scenes.
- Upon finding the target, a scene will be played where we will see Tommy giving him memories from Salieri and taking out his pistol to shoot just when one of the bombs that Paulie has planted explodes, unbalancing Tommy and causing him to fall to the ground. At that moment, the target starts to run and begins to call Morello's men.

Second section. Shooting.

- Start a shooting where you must advance chasing the objective at the same time that you fight with the men of morello, using the sets as cover.
- Small running chase scene.
- Tommy corner the target and kills him.
- Paulie appears driving a turreted vehicle that he found in the prop area. It will be visually modified to fit in with the rest of the film.

Third section. Escape.

- You place yourself in the turret and just before leaving, as you pass through the parking lot, you stop to destroy all the parked cars so that they have no way to follow you.
- Some cars start to chase you, they are the ones that were in the props hangar, they are cars visually modified to fit the movie.
- Combat section in which using the turret you must destroy the cars that follow you while Paulie is driving.

Memorable Moments:

1. Witnessing the recording of a movie scene.
2. Combat scene inside a film set using props as cover, having a visually unique shooting scene.
3. Final escape scene, operating the turret while being chased by cars with props from the movie.

Unique Feature:

Use of the armorer car that appears in the escape scene of the mission "A trip to the country". This time we will be the ones to use it, Paulie driving it and you using the turret to destroy the enemy cars. With the particularity that the turret rotates 360 degrees, and you will have to be aware of all directions and having to destroy blockades and barricades.

PATH

- (1) Start point. High position from where you can see your objective and a way in.
- (2) Entrance to the studios jumping over a broken wall.
- (3) Stealth section until you reach the dressing room. If you are detected, the mission is over.
- (4) When you interact with the dressing room, it runs a cinematic where we see that the target is not there, when Tommy leaves the dressing room we find an npc who confuses tommy with an extra and tells us that he will take us to the studio.
- (5) Movie set. We must find the target. We can see two movie scenes being recorded.
- (6) Upon finding the target and interacting with him, a scene will be played where we are going to shoot him but just before shooting one of Paulie's bombs explodes, unbalancing us and causing us to miss the shot. The objective begins to run and we must chase it while we fight with the men of morello. We can use filming sets as cover. If we shoot at the video cameras they will have a mini explosion, being able to damage the enemies.
- (7) Continue the shooting using the wooden props of the sets as cover.
- (8) End of shooting scene and pursuit of the target through the wooden props.
- (9) The target is trapped when the door of the set doesn't open and Tommy kills him.
- (10) Paulie appears driving a vehicle with a turret.
- (11) Destruction of cars in the parking lot.
- (12) Chase by car having to destroy the vehicles that follow them with the turret.

LEGEND

- Objective.
- Boxes / Covers.
- Vehicles.
- Movie camera.
- Enemy.
- Enemy movement Path
